Professional Summary

Detail-oriented Data Analyst skilled in SQL, ETL and Data Modeling, with hands-on experience in process automation, visualization and requirement documentation. Proven ability to translate data into actionable insights that support business decisions and improve operational performance.

Technical Skills

- Database Tools: MongoDB, SQL, PostgreSQL, MySQL
- Analytics Tools: Python (Pandas, NumPy, Matplotlib-basic), Excel (Power query, VBA, Macros, Pivot, VLOOKUP)
- Visualization tools: Power BI, Tableau
- Data & Process Modeling: ERD, UML, DFD, Use Cases, User Stories
- ETL & Data Pipelines: Pandas, Oracle ODI, OLAP Cubes, Azure Databricks (Basic)
- ML & AI: Scikit-learn (Basic), OpenAI API, LangChain
- Version Control: Git, GitHub
- Cloud Platforms (Basic): Azure, AWS, Google Cloud

Education

Conestoga College, Ontario, Canada

- Reporting System and Database Development (May 2024 – Dec 2024)
- Software Quality Assurance and Test Engineering (May 2023 – Dec 2023)

Indus University, India

- Bachelor of Computer Application (Jun 2019 – Aug 2022)

Experience

Volunteer Data Analyst | Jain BizHub (Jan 2025 – Sept 2025)

- Designed an AI-based business directory connecting local businesses and customers.
- Developed data models, process diagrams, and ETL workflows, improving report efficiency by 30%.
- Created analytical dashboards using Google Analytics for growth tracking.

Volunteer Web Developer | Jain Community Services (Jan 2024 – Dec 2024)

- Built and maintained a responsive community website using HTML, CSS, and JavaScript.
- Collaborated with stakeholders to document user stories and optimize workflows.
- Improved website speed by 25% and created SOPs for future scalability.

Data Analyst Intern | MentorPower Software Company (Jun 2020 – May 2021)

- Cleaned and analyzed datasets using SQL and Python for management insights.
- Maintained Power BI dashboards to track key KPIs.
- Automated Excel reports, improving reporting efficiency.

- Supported cross-functional teams in requirements analysis and workflow documentation.

Projects

- AI-Powered Business Directory (Feb 2025): Built Flask-based AI system for business classification; integrated analytics and web UI for engagement tracking.
- Amazon Sales Analysis (Nov 2024): Designed ETL pipeline and OLAP cube in Oracle ODI for revenue insights.
- ETL Pipeline Development (Oct 2024): Modeled data in star schema, reducing query time by 40%.
- IT Dashboard Analysis (Oct 2024): Created Power BI dashboards for system uptime and incident tracking.
- Global Education Data Analysis (Sep 2024): Transformed datasets in Python & SQL, visualized trends in Tableau.

Certifications

- ECBA Certification – IIBA (Expected Dec 2025)
- [Microsoft Azure Fundamentals](#) – Microsoft (Apr 2025)
- [Google Data Analytics Specialization](#) – Google (2024–2025)
- [Cypher Fundamentals](#) – Neo4j Graph Academy (Jul 2024)

Additional Information

- Eligible to work in Canada (Open Work Permit – valid until July 2028)
- Willing to relocate within Canada
