Technical Skills

- **Languages & Tools:** Python (Pandas, NumPy), SQL, Git, GitHub
- **Business & Reporting Tools:** Power BI, Excel (Pivot Tables, Macros, Data Validation), Tableau
- **ETL & Data Handling:** Oracle ODI, MySQL, MongoDB, Data Modeling, Postman
- **Testing & QA:** Jira, Selenium, Manual Testing, Postman (API Testing)
- **OS & Platforms:** Windows, MacOS, Linux

Education

Conestoga College, Ontario, Canada

Reporting System and Database Development May 2024 – Dec 2024

Software Quality Assurance and Test Engineering May 2023 – Dec 2024

Indus University, India

Bachelor of Computer Application June 2019 – Aug 2022

Projects

AI-Powered Business Directory

Feb 2025

- Developed an AI-driven system using Flask, OpenAI API, and MongoDB to extract business details from websites.
- Implemented web scraping (BeautifulSoup) and NLP-based classification to categorize businesses into industries like IT, Healthcare, and Finance.
- Used Postman for API testing, ensuring efficient error handling, security, and performance optimization.

Amazon Sales Analysis Using ETL, OLAP, and ODI

Nov 2024

- Designed and built an ETL pipeline to process Amazon sales data for insights into revenue, vendor performance, and regional trends.
- Created an OLAP cube for multidimensional analysis using Oracle Analytics Workspace Manager to improve data visualization.
- Automated ETL workflows using Oracle Data Integrator (ODI), enhancing data processing efficiency.

ETL Pipeline Development

Oct 2024

- Developed an end-to-end ETL process to extract, transform, and load structured data into a data warehouse.
- Implemented SQL-based transformations to clean, normalize, and aggregate datasets for analytical reporting.
- Built optimized star schema models to enhance querying speed and improve data analysis efficiency.

ABC Company IT Dashboard Analysis

Oct 2024

- Designed and maintained a Power BI dashboard to monitor IT performance metrics and track key operational trends.
- Developed interactive visualizations for system uptime, cybersecurity threats, and incident response times.
- Automated report generation and data refreshes, reducing manual efforts and improving decision-making speed.

Global Education Data Analysis

Sep 2024

- Cleaned and transformed large-scale education datasets using Python (Pandas, NumPy) and SQL to ensure data quality.

- Created Tableau dashboards to visualize trends in literacy rates, enrollment ratios, and regional education disparities.
- Developed a Flask-based web app for dynamic data filtering and interactive exploration of global education data.

Professional Experience

- Operational Coordinator** | Conestoga College, Doon Jan 2024 – May 2024
- Created an exceptional customer experience, increasing student satisfaction by 20% through warm assistance and efficient resource distribution.
 - Optimized processing times by 30%, boosting satisfaction and utilization rates.
 - Achieved error-free transactions, reducing checkout time.
 - Guided over 100 students daily, decreasing wait times by 30% with efficient queue management.
 - Resolved cases with detailed analyses, promoting timely issue resolution.

- Data Analyst Intern** | MentorPower Software Co., India June 2020 – May 2021
- Maintained and updated Power BI dashboards, ensuring data accuracy and accessibility for leadership and cross-functional teams.
 - Collected, cleaned, and reconciled large datasets from multiple sources to ensure consistency with corporate financial systems.
 - Performed in-depth analyses of financial metrics, including growth trends and business performance indicators, delivering actionable insights to stakeholders.
 - Developed and automated ETL workflows to enhance efficiency and reduce manual efforts in data preparation and reporting.
 - Created interactive dashboards to visualize key performance indicators (KPIs) and track business risks, improving decision-making processes.
 - Validated and resolved discrepancies in reporting, ensuring high data integrity and reliability for board-level presentations.
 - Collaborated on ad hoc analysis and special projects to support evolving business objectives.

Certificates
